

Task #	23 – 23	Date:	2 November 2023	
Meet:	Navigation Inn			

We were very lucky today with the weather; we managed to avoid the worst of the rain whilst also benefiting from the earlier downpour - lots of puddles for us to see!

We've made a start on filling the 'potholes' along the towpath beginning from Barrow Boating/The Navigation end.

Our volunteers used one tonne of gravel along this first section and will now wait a few weeks to see how it settles to confirm it's a good choice of material for the changeable conditions along there.

Thanks to Brian, Karen, Steve, Honor, Philip, Julie, and Bob.

Well done team.

Thanks also to Peter from CRT for ordering the materials and tools for us, and Frank from Barrow Boating for storage.

Next Task:

Thursday 16th November 10:00

Location: **Millennium Park – Melton Road entrance area**
