| Task # | 24 – 03 | Date: | 22 Feb 2024 |  |
| Task: | Towpath Repairs – from Deep Lock | | | |

What a difference a day makes!

Yesterday's task was postponed due to rain, and I am so glad it was because today it was just so lovely to be out and about. It started a bit chilly, but we all quickly warmed up laying the grano mix in the worst of the pot holes and joining up with the work completed earlier in the year. We started from Deep Lock working back towards Barrow Weir so we were in the sunshine all morning.

We also managed to clear all the debris from in front of the lock gates. Lots of broken branches and a few large trees stumps were hauled out along with the leaf detritus from winter storms. Luckily, considering all the recent flooding, not too much general rubbish.

Thanks to the team today who all turned up with just one days' notice, Alistair, Karen, Nick, Steve, Honor and Andy. Thanks also for all the kind words from those passing by especially those who joined in with our 'Sun dance' to flatten the repaired pot holes.

Next Task:

Thursday 7th March 2024 10:00

Location: **Main entrance – Millennium Park**
