

<b>Task #</b>	21-07	<b>Date:</b>	10 <sup>th</sup> June	<b>Review Date:</b>	Sept 21	
				<b>Meet:</b>	<b>Mill Lane Play Area</b>	
				<b>Summary:</b>		
<b>Volunteers:</b>				6		
<b>Time:</b>				10:00	12:00	
<b>Weather:</b>				Warm and humid		

The group had to be split into 2 teams today to tackle different jobs in the same area. So Steve, Julie and I concentrated on removing the vast amount of nettles that have grown in the last few weeks since we re-gravelled the footpath at the bottom of Mill Lane.

**Steve**

**Julie**

After 2 hours and 3 full brown bins of green waste removed from the side of the footpath, it is now free from overhanging stinging nettles – for a little while at least!

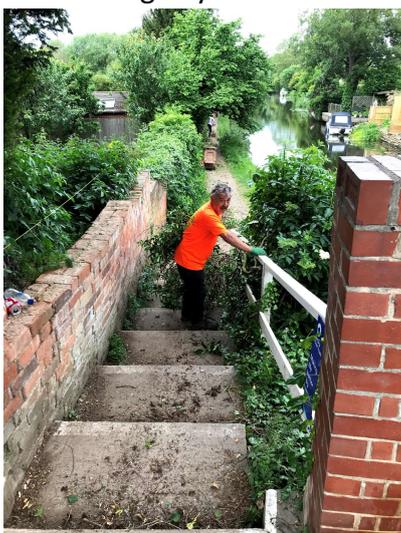

The big task of the day was to help make the towpath safer just along from the Navigation Pub. The hedgerow had died back and a lot of ivy that was growing within it had collapsed down and was causing the path to narrow opposite where the towpath was beginning to erode. There was also a large tree root which was causing lots of people to trip up within this congested spot – which has now removed.

**Nick and Andy** - Clearing the ivy from the bridge by the Nav

**Karen** – having a quick rest after cutting back all the dead ivy and hedgerow

**Andy** – with yet another bundle of dead ivy

Thanks to **Charnwood** for the brown bins, and **Barrow Boating** for letting us use your space to store the waste before **Canal & River Trust** collected it all in the afternoon.  
**Great Team work**

**Next Task:**

Tuesday 24<sup>th</sup> June

Location: Millennium Park Entrance

**Thanks everyone – great work**

**Please Note**

Although the vast majority of the dead ivy has been removed to make the towpath wider and safer, the path will not be repaired for another few weeks.

**Please take care in this area – the path is eroded and narrow**
