

Task #	21-24	Date:	9 th Dec	Review Date:	April 22
	Meet:	Barrowcliffe Close			
	Summary:				
	Clear ivy overgrowth from alongside paths towards railway bridge				
	Volunteers:	6			
	Time:	10:00	12:00		
Weather:	Mild and dry				

A lovely day, sunny and warm, for our last task of the year. After all the recent rain, wind and snow, it was great to get back outside.

Last bit of tidying up along this jitty for the year now that the leaves are all down.

Lots of ivy growth since our last visit in July that now overhangs the path and makes it really narrow to use.

<<< **Steve**, busy sweeping at the top end of the jitty off Cotes Road.

We have been lucky for most of our tasks this year to get support from **Serco and Charnwood Borough Council** who provide waste bins for the day for us to use – it would be extremely difficult for us to do these tasks with out them being available - Thank You

Philip and Andy B >>>

What a difference a couple of hours make – the jitty is clear of leaf debris and overhanging ivy. All ready for the winter months ahead.

The team swept and trimmed back the full length of the jitty all the way back to where it goes over the railway bridge.

Leaf debris removed to try to reduce the weed growth in future years. It all goes in the green waste to make compost.

Great effort today team.
Thanks to **Andy B, Philip, Steve, Julie and Andy S.**

Thanks also to everyone that stops and chats to us to thank us for our efforts – it really is appreciated.

Happy New Year to you all

Thanks everyone – great work

Next Task:

Thursday 10.00 13th Jan 2022

Location: **Mill Lane Play area**
