

Task #	21-16	Date:	2 nd Sept	Review Date:	Sept 22	
	Meet:	Cemetery				
	Summary:	Trim the hedges and clear the paths				
	Volunteers:	14				
	Time:	10:00	12:00			
	Weather:	Mild and dry				

Great turn out today from the team, including 2 new volunteers, Stewart and Lynne. It was lovely to be out helping to keep the cemetery paths usable for everyone that visits.

It's just under 12 months since we were last here and although the hedges were overgrown near the top entry way, they weren't as bad as before.

It didn't take long for the team to get going, and within no time at all the worst had been removed.

The paths are now back to full width from the small entry gate down to the bottom.

Clearing the moss from the paths is hard work – here the team have just finished removing a full barrow load from just one of the paths – new volunteer Lynne making a great start!

Unfortunately, we couldn't get brown bins from Charnwood this time due to staffing issues so we had a lot of trips up and down the length of the cemetery with a wheelbarrow and a trolley to move the green waste out into the field below.

Our new volunteer Stewart seemed to have 'picked' that job – at least the distance reduced each time as we progressed down the path.

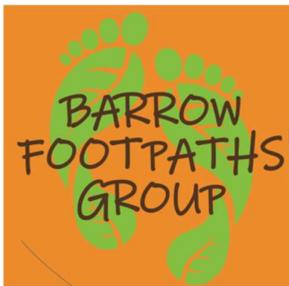

Having a large team today enabled us to do so much more than planned, so after finishing the first side we decided to make a start on the next one.

We were also able to clear a couple of bags of rubbish from around the area today too – thanks Liz.

Team photo: Martin, Steve, Mick, Linda, Andy, Nick, Stewart, Margaret, Soo, Pat and Liz.

Phil and Lynne had just left.

Next Task:

Thursday 16th September 10am

Location: Cemetery, Cotes Rd

Thanks everyone – great work
